

# Winter Survival, Fall Dormancy & Pest Resistance Ratings for Alfalfa Varieties

2011 Edition

*Photo courtesy of University of Minnesota*

This publication provides ratings of alfalfa varieties eligible for certification by seed certifying agencies. It does not list all important characteristics to be considered in the selection of alfalfa varieties. With the exception of some varieties listed as checks, all varieties listed can be purchased in the United States.

This National Alfalfa & Forage Alliance publication is intended for use by Extension and agri-business personnel to satisfy a need for information on characteristics of certified-eligible alfalfa varieties. NAFA updates this publication annually to keep the information current.

# Winter Survival, Fall Dormancy & Pest Resistance Ratings for Alfalfa Varieties

Information is obtained from the Association of Official Seed Certifying Agencies (AOSCA) and the National Alfalfa Variety Review Board (NAVRB) Report. Blank spaces indicate variety is susceptible or has not been adequately tested.
